

ALP DESIGN AVALON

ALP DESIGN

Ultra-light harness specifically designed for speleological activities.

Developed for expert users.

Thanks to a very low attachment point, during the rope ascent phase you gain 10-15 cm more height for each step.

2 solid gear loops in rear position.

2 side gear loops.

Soft padded leg loops for extreme comfort.

Adjustable leg loops and waist belt for a perfect fit.

High quality, completely made in Italy!

CE Certified.

Material: polyamide

Buckles: light alloy

Sizes: 1 - 2 - 3 adjustable

Weight: 350 g (size 2)
