

YATES TACTICAL

SPECIAL OPS HARNESS 309

New *Yates Tactical* harness that utilizes a fully padded structural duty belt which is designed to replace the existing padded duty belt worn by SWAT Officers. Super stiff scuba webbing is sewn to the outside of the belt to facilitate hanging of leg holsters, ammo pouches and gas mask bags. Stiff *scuba* webbing belt attached to inside structural webbing by velcro for easy adjustment and positioning of holsters and pouches. The scuba webbing attachment system is now able to be separated at the rear of the waist belt to easily accommodate slide on holsters and pouches. Velcro and hard pull snaps secure the outer belt portion in position. *Cobra Quick Connect* Waist Buckle is now configured to allow the user to have the buckle on the left side or right side of the belt so that it will not interfere with the positioning of the side weapon depending if the user is right or left-handed. Gear loops can now be adjusted to any position along the belt. The leg loop portion of harness can be quickly attached to the belt with a standard locking carabiner (not included). This converts the duty belt portion of the system into a fully functional rappel harness.

Quick leg adjustment with *camlock* buckles

Meets ASTM/ANSI/OSHA Seat harness standards

Meets ASTM F1772 Seat Harness Standards

5 sizes available: S (68-81cm / 27-32"), M (76-89cm / 30-35"), L (86-99 cm / 34-39"), XL (96-106cm / 38-42")
